2018

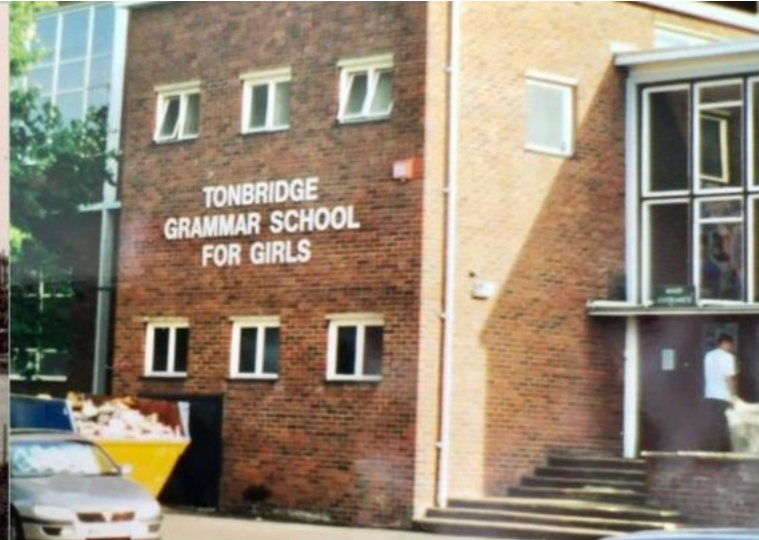

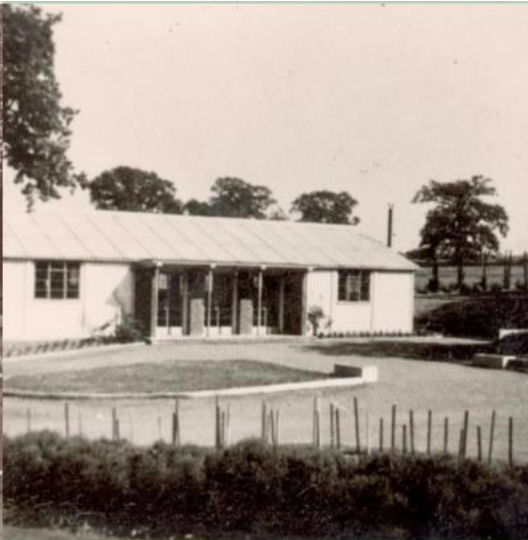

The outdoors sport and all-weather pitch is open for everyone!

2015

The IBarn was completed!

The first ever class!

The old canteen!

The old entrance - now part of the canteen!

A glimpse of the sports hall 3-4 decades ago!

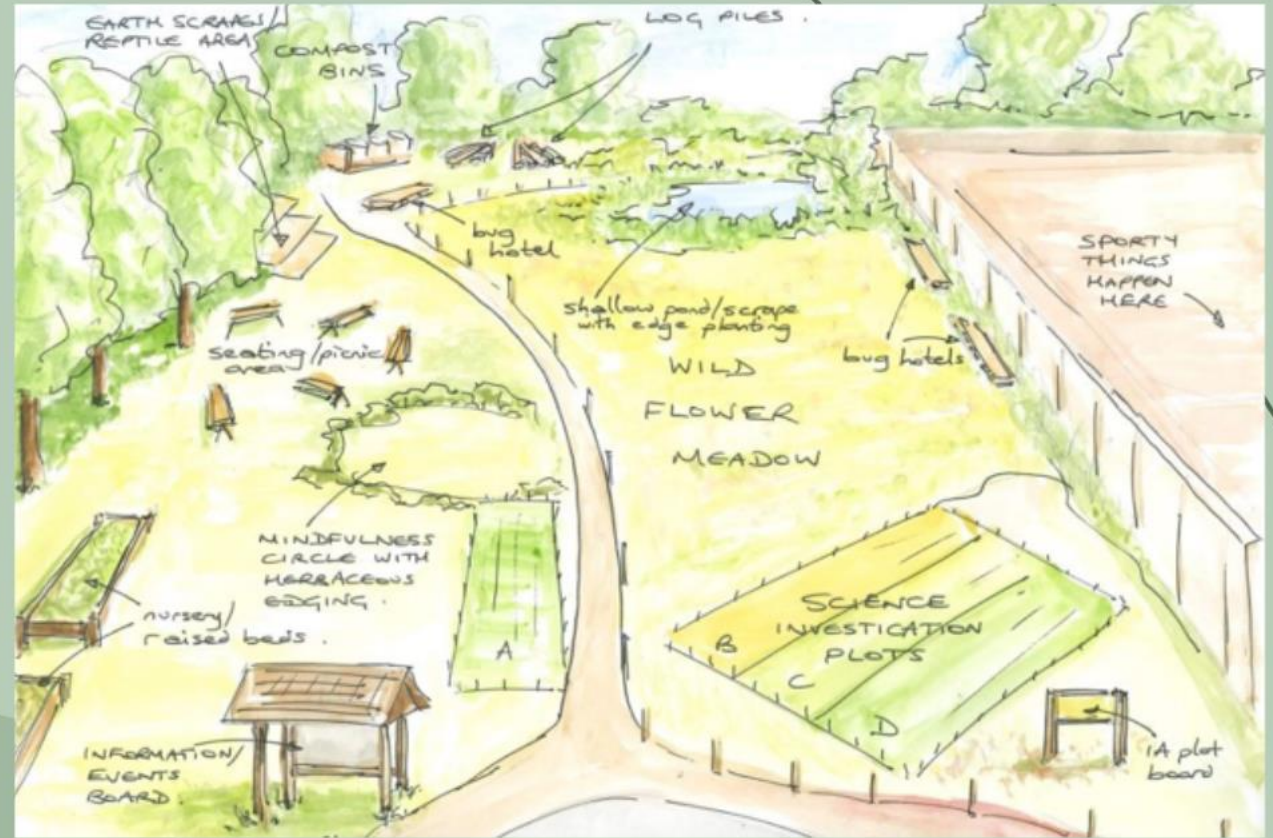

A student back with her grandson!

Upcoming...

The Wild Flower Meadow Project! This is a peaceful and enjoyable setting for all to enjoy. It is a quiet environment where students can take time to relax in the nature surrounding them, aiming to benefit the wellbeing of all. New homes for many animals will be created, such as bug hotels, a reptile area, log piles, compost bins and potentially a pond!

Science investigation plots may also be made too. This upcoming project is another exciting and thrilling part of TGS that will be created.

Thank you!

We hope this was an interesting insight into
TGS and how it became the school it is
today!
